

The Cincinnati Academy of Professional Psychology (CAPP) is an organization of psychologists whose purposes are the following: to promote excellence in the practice of professional psychology in the Cincinnati area; to promote greater public knowledge of the psychological aspects of human behavior; to designate and maintain high standards in the professional relationships between psychology and other allied professions and organizations whose aims are compatible with it, and between psychology and the community; to provide an opportunity for peer consultation and continuing education with emphasis on the exchange of information related to the practice of psychology; and to provide a strong organization base and forum through which members may address matters of mutual interest and professional concern, and work cooperatively to resolve problems.

Members of CAPP are licensed psychologists by the State of Ohio who offer their services to individuals, groups, agencies and institutions. In order to be eligible for membership in CAPP, an applicant is required to possess a Ph.D. in psychology or its equivalent and be licensed as a psychologist by the State of Ohio (or in another state).

A referral and information service is maintained by CAPP and can be reached at **(513) 779-2181**. Visit our website to search by specialty at www.cappnet.org.

Listing in this directory does not explicitly or implicitly guarantee the quality of service provided by a CAPP member psychologist. CAPP, its officers and its Board of Trustees, do not accept liability for the acts, by omission or commission, of any CAPP member.
